

## HVB Training Fund

**2019**

### HVB Training award

Training funds were awarded to Professor Barrie Wilkinson at the John Innes Centre, Norwich to allow a postdoctoral researcher from his group to attend a four-day MicroED workshop at the MicroED Imaging Center at UCLA, Los Angeles in December 2019. Funds were spent on travel and accommodation.

Below are some comments from Prof. Wilkinson about the awarded bursary:

*The HVB training fund allowed us to gain expertise and contacts that will enable us to establish a new technique at our institute, with the potential to greatly accelerate our Natural Products research.*

**2020**

### HPLC method development workshop, 16-17 January 2020

This two day workshop was jointly organised by HVB and AlgaeUK for their Network members. HVB covered the cost of the workshop and accommodation for HVB members who attended the workshop.

The workshop was delivered by Dr Mark Jones, RLC-Lab at Loughborough (<https://www.rlclab.com/>), which enabled the participants to learn about the theory and practical aspects of HPLC method development, sample preparation techniques and semi-prep LC.
